

VERSAFILL™

VFFS hot fill films

Flair's VersaFill line of VFFS films is optimized for packaging liquid & semi-liquid products in industrial & foodservice applications. Strong seals for leak-free performance, combined with abuse-resistant durability & exceptional film optics, our VersaFill films protect & showcase the qualities that end-users expect from your liquid products.

Key Features

- Optimized for filling temperatures up to 100°C
- Seals through grease & residue
- Exceptional hot tack strength to withstand product weights & temperatures
- Puncture & flex-crack resistance for reliable protection through processing, distribution & handling
- Strong lap seals

FLAIR / BEYOND / PACKAGING

VERSAFILL™

VFFS hot fill films

VersaFill™ provides clear packaging advantages over #10 cans for foodservice operations:

- Reduced transportation costs with improved product-to-package ratio
- Compact design stores more product in same space
- Safe, easy-open handling without cutting implements
- Maximum product yield with squeezable design reduces waste

Options & Services

- Technical Service & Development for custom solutions including:
 - Tailored OTR & WVTR values
 - Lightweight structures to reduce material, enhance sustainability
 - Hot tack strength tailored to product & process conditions
 - Film optics, shelf life & performance tailored to end-user requirements

Popular Applications

Market-Driven & Customer-Focused Innovation, Since 1992

Flair Flexible is a privately-held, fully-integrated packaging manufacturer focused on comprehensive support and solutions for your packaging needs, no matter your size or budget. Complete with GFSI-recognized FSSC22000 certification of our food safety management system, Flair's products are FDA, USDA & CFIA compliant for safe solutions you can rely on.
